Engineers Locating Line.

"Two corps of engineers have been in the field surveying and locating the line. Henry W. Bean, the veteran railroad engineer of Jefferson, Ia., ran and located the line from Cedar Rapids to the Niobrara river, a dis tance of 120 miles, and completed his work last week. George S. Oliver, the chief engineer, has been surveying the line from Grand Island across Hall, Merrick, Nance, Boone and Greeley counties and will form a tickets, limited until October 31, as follows junction with the line run by Bean some where in the Cedar river valley. When this junction is made, which is expected to be accomplished in a week or ten days, there will be 355 miles of the road surveyed About 200 miles are already graded and ready for tracklaying to begin. In all probability construction operations will be gin from the Grand Island end and will pro ceed with all rapidity possible, the object Illinois Central railroad, 1402 Farnam street. being to have the road completed to the Niobrara river in time to move this year's grops and cattle when ready to market, The rumors which have been given pub-

Sunday was a gala day for all of the attaches of the Milwaukee offices in this city. The men who hold positions entitling their names to appear in print as large as that given the president of the system vied with the office boy in having a right royal time. It was the occasion of a genuinely enjoyable picnic spent at the country residence of W. E. Bock, General Western Agent Nach's private secretary. Mr. Book lives with his parents near Council Bluffs and it was there that the Milwaukee men hied themselves early in the morning and they didn't get back until late Sunday night.

They played all sorts of outdoor sports. picked fruit from the trees to their hearts content, ate a big dinner and then played base ball. Contracting Freight Agent Arthur's team defeated Court Carrier's ag-gregation by a score of 29 to 23. It was a great match, in which the playing of the two captains was the feature. Contracting Agent Eugene Duval and City Pas senger Agent George Haynes acted a chaperons. The other members of the picnicking crowd were: H. P. Butler, H. W. SQUATTERS REFUSE TO MOVE

Employ Legal Counsel and Will Fight for Their Alleged Rights.

THEIR LAND WANTED FOR PARK PURPOSES

Contest to Be Made on the Ground that They Have Lived There Ten Years in Undisturbed

On an order from the county court, Constable Louis Grebe succeeded yesterday it serving notices on thirteen squatters on the exposition bluff tract and under the brow of the hill in the Sulphur Springs reserve. The squatters have employed legal counsel and will contest their rights on the ground of ten years' unmolested residence. They have fenced in about six acres of the thirty in dispute and will make a special effort to retain at least this portion. The six acres are included in the tract which the north siders desire to transform into a boulevard and park. Its value is between \$15,000 and

The tract was originally the property of A. J. Poppleton and J. M. Woolworth jointly, and other than the alleged rights of the squatters there is no cloud on the title The most active spirit among the squatters is Mrs. M. Bowser, a widow who operated the sod house during the exposition. Others interested with her are F. J. Stanley, William Dillsavee, Mrs. Luetzner, Arthur Stubblefield, Patrick Connolly, George W. Randers, James M. Knapp, Fred Williams, Isaac Wiggins, Lawrence Anderson and a Mr.

The constable has been engaged for several days in an effort to locate the parties and has been threatened by victous dogs and berated by Amazons during the operation. The sod and sheetiron shantles are obscured by weeds and bear such signs as "Minnies for The occupants make their living by fishing in Cut-Off lake and sheriff's deputies have traced a number of seines to this lo-

Mrs. Bowser received her notice to gulf quietly with the only comment, "You'll have to show me." She says she will be on hand when the case is called before Judge Vinsonhaler July 6 with a showing which will surprise those whom she terms her oppres-She claims to have held her residence for ten years and to be protected by squatters' rights.

W. S. Poppleton makes the following "Mrs. Bowser is a squatter on our land and has no rights whatever. Her sod house, which she built for the first exposition, is located on what would be Foureenth street if the thoroughfare were extended. The only person on the land who bas any rights there is Mrs. Leutzer, who has been our tenant for a number of years. During the last ten years we have moved over fifty squatters from these premises and we are simply having another cleaning out, such as most large holders of Omaha real estate are obliged to have once in so often to protect their possession."

Fables of the Rail-1.

A poor man was Walking up and down the Street one day bemoaning his Fate when a Wicked fairy put him Next to a fine Job on the Police Force where he soon got into the Habit of Waiting at the Back door for his Regular Glass every night and one day he lost his Star and went from Bad to Worse Until he became a Politician and was elected o the Legislature.

Moral-If he had run across a good fairy she would have staked him to a farm along the Northwestern line in northern Wisconsin and he might have won the state fair premium for individual agricultural exhibits.

A Place to Spend the Summer. On the lines of the MILWAUKEE RAIL-WAY in Wisconsin are some of the most summer vacation camping out or at the elegant summer hotels. Boating, fishing, beautiful lakes and streams and cool weather. These resorts are all easily reached from Omaha. BOARD BARS FIRECRACKERS

No Explosives Will Be Allowed in the Parks on Independence Day.

No firecrackers will disturb the peace of Omaha parks on the Fourth of July. The use of fireworks and firecrackers is prohibited in the parks at all times and the commissioners have decided that it is best not to suspend the rule on the Fourth of July, as has been done in the case of the city ordinances. The crowds in the parks will be so large

on the Fourth that the use of firecrackers would be dangerous. Giant firecrackers tear up the sod and all firecrackers make such a litter that the board feels that it is to the best interests of the parks to prohibit the sale and use of all sorts of explosives.

MILES OF PAPER IN MAILS

Transcontinental Path Might Be Paved With Additional Newspapers Sent Out in One Year.

Prosperity has evidently come to the Omaha publishers, as during the year ending June 20, 1900, they paid into the local postoffice \$4.187.58 more than they did for the year preceding. This money represents 418,159 pounds of newspaper, or 246 rolls of paper such as is used in printing The Bee. The paper representing this increase if in sheets the size of four pages of The Bec, placed end to end, would cover a distance o 3,064.34 miles, or a distance about equal to

that from New York to San Francisco.

The increase in this department of the postoffice shows a decided and actual growth as during the present year there has been n crease in the number of publications. The increased receipts come from added subscribers to the publications in existence last
